

## Claims

1. Mixed fibre nonwoven or woven fabric for making nonwoven or woven articles such as fillings for bedding, upholstered furniture and automotive interiors or the associated covers, textile garments and linings, characterised in that the mixed fibre nonwoven or woven fabric consists of the principal components cellulose fibres and kapok fibres.
2. Mixed fibre nonwoven or woven fabric according to claim 1, characterised in that the cellulose fibres consist of chemically manufactured cellulose fibres.
3. Mixed fibre nonwoven or woven fabric according to claim 2, characterised in that the cellulose fibres consist of lyocell fibres manufactured by the solvent process.
4. Mixed fibre nonwoven or woven fabric according to any of the above claims, characterised in that it forms a climate fabric.
5. Mixed fibre nonwoven or woven fabric according to any of the above claims, characterised in that polyester fibres are added to it.
6. Mixed fibre nonwoven or woven fabric for making nonwoven or woven articles such as fillings for bedding, upholstered furniture and automotive interiors or the associated covers, textile garments and linings, characterised in that the mixed fibre nonwoven or woven fabric consists of the principal components cellulose fibres and kapok fibres.
7. Mixed fibre nonwoven or woven fabric according to claim 1, characterised in that the cellulose fibres consist of chemically manufactured cellulose fibres.
8. Mixed fibre nonwoven or woven fabric for making nonwoven or woven articles, consisting of the principal components cellulose fibres and kapok fibres, characterised in that the cellulose fibres consist of chemically manufactured cellulose fibres.

9. Mixed fibre nonwoven or woven fabric according to claim 2 or 3, characterised in that the cellulose fibres consist of lyocell fibres manufactured by the solvent process.
10. Mixed fibre nonwoven or woven fabric according to any of the above claims, characterised in that it forms a climate fabric.
11. Mixed fibre nonwoven or woven fabric according to any of the above claims, characterised in that polyester fibres are added to it.
12. Antibacterial, house dust mite free and moisture balancing mixed fibre nonwoven or woven fabric for making nonwoven or woven articles, characterised in that the mixed fibre nonwoven or woven fabric contains chemically manufactured cellulose fibres and kapok fibres.
13. Antibacterial, house dust mite free and moisture balancing mixed fibre nonwoven or woven fabric according to claim 1, characterised in that the cellulose fibres consist of lyocell fibres manufactured by the solvent process.
14. Antibacterial, house dust mite free and moisture balancing mixed fibre nonwoven or woven fabric for making nonwoven or woven articles, characterised in that the mixed fibre nonwoven or woven fabric contains lyocell fibres manufactured by the solvent process and kapok fibres.
15. Antibacterial, house dust mite free and moisture balancing mixed fibre nonwoven or woven fabric according to claim 1 or 2, characterised in that polyester fibres are added to it.
